### January 9 – Steve Hinson, Kiwanis Eliminate Project

Steve Hinson, a Foothills Club member, provided status of the Kiwanis International Eliminate Project, and described his involvement with the project when he served with Kiwanis International in Indianapolis from 2011-2015. In 2013, he traveled to Cambodia with major donors to observe the medical treatment, and its effect in that country. He reminded us that through The Eliminate Project, Kiwanis International and UNICEF joined forces to eliminate maternal and neonatal tetanus (MNT)—a deadly disease that steals the lives of nearly 49,000 innocent babies and a significant number of women each year. He explained that: 1) only \$1.80 of medicine costs are needed to protect mother and baby, and 2) the Kiwanis fundraising goal of \$110 million has been met. However, our job is not done yet. Although 41 countries have eliminated MNT, another 18 countries in some of the poorest and most remote areas of the world have not met the standard of less than one case in 1000 births in the district. More information can be found at:

Thanks, Steve, for reminding us the impact of Kiwanis funds for The Eliminate Project to protect poor mothers and babies around the world.
